Alpine Squeeze! Gets a New Polka Van

September 1, 2009. Cornwall on Hudson, NY.

So long to the Black Polka Van which served us well over the past years. The 1994 Chevy finally kicked the bucket this past summer, after a fire caused by a faulty battery doomed the vehicle to the junk yard. Oh if that van could talk, the stories it would tell! Alpine Squeeze! has since down-sized with a sleeker, more efficient vehicle. The 2000 Ford

Windstar is now ready to hit the road with new signage, new tires, and of course a hitch to tow the Alpine Squeeze! trailer. So long, Bessie! You served us well!
